

## TECHNICAL DATASHEET

# ***CATAWET 7200 P***

## FUME SUPPRESSANT FOR CHROMO/SULFURIC ETCHING BATHS

Powder fume suppressant for Chromic acid/sulfuric acid etching baths. Prevents the fumes gassing out by lowering the surface tension & producing a foam blanket on the bath.

### **Application:**

Add 0.2-0.4 g/l into the plating bath.

### **Technical data:**

White powder

### **Effluent treatment:**

All concentrates and rinsing waters have to be treated according to local regulations.

## **Health and Safety**

Material Safety Data Sheets are available for all GALVANO MONDO products, they are normally issued with relevant quotations and Technical Data Sheets. They explain hazards associated with the product following classification by European Statutory Requirements. Normally more than one product will be used in a process. Risk evaluation of the process is the users responsibility because the user controls men, materials, methods and machines. The user must consider all of the substances present in the solution, whether they present a risk to people and the environment, whether abatement measures are needed.
